2014 RETAIL PRODUCT BROCHURE

WINNER OF MORE THAN **50** BEST BUYS

FOCUSED ON FITNESS

ABOUT VISION

With innovative workout technology proven out in the most demanding commercial environments, Vision Fitness® equipment is performance fitness equipment engineered to bring a premium workout experience to your home.

We design equipment that delivers both style and durability. We want your Vision Fitness product to look good in your living space and be easy to own. Consider our treadmill Infinity Deck™ System that is tested to run 21,000 miles without maintenance and our unique Suspension Elliptical™ design that vastly minimizes noise and reduces size so you can put your equipment wherever you like.

We also enhance our products with cutting-edge programming that maximizes your effort and keeps you motivated. Our exclusive Sprint 8® High Intensity Interval Training (HIIT) workout is a perfect example because it delivers better results in less time.

INNOVATIVE TECHNOLOGY

Mobile technology continues to transform our lives. You can now choose from a variety of apps and other devices to track your fitness efforts and overall health.

At Vision Fitness, we recognize what a difference technology can make. That is why we developed the ViaFit™ digital tracking system that enables your fitness equipment to communicate your workouts to your favorite tracking tools.

We don't add technology simply to extend our list of features. We are very deliberate, and we invest in innovations that make a real difference for our customers. Our goal is simple: We want to help you reach your goals.

TOUCH+ CONSOLE

ELEGANT+ CONSOLE

CLASSIC CONSOLE

LOOKING TO THE FUTURE OF CONSOLE TECHNOLOGY

VISUALIZE SUCCESS WITH VISION FITNESS

We offer three console options so you can select the features that work best for you. Each console has an intuitive interface so it's easy for you to adjust settings and fine-tune your workout. Plus, they're all compatible with our Passport™ Media Player, which connects to a television and transports you to stunning locales while you exercise.

TOUCH+ CONSOLE

This Wi-Fi console brings some of the hottest features in electronics to exercise. For example, our all-new ViaFit™ system simplifies workout tracking. Plus, the high-definition display and touchscreen interface make it easy for you to operate your equipment. You can even control your iPod® playlist on the touchscreen.*

* Compatible with iPhone® (4, 3GS), iPod touch® (4th, 3rd, 2nd generation) and iPod nano® (6th, 5th, 4th, 3rd generation)

ELEGANT+ CONSOLE

Completely redesigned, the new Elegant+ console features a touchscreen and ViaFit, our Wi-Fi connectivity system. You also get the acclaimed Sprint 8 High Intensity Interval Training (HIIT) workout, a science-based regimen that requires just three 20-minute workouts per week.

CLASSIC CONSOLE

This console was designed to get you started on your workouts right away. The extra-large LED display makes it easy to view distance, time, speed, calories and other important measures. Also, speed and incline changes are quick and easy using the in-reach controls or keypad.

viafit

connect + track + share

ACHIEVE MORE. MANAGE LESS.

VIAFITNESS.COM

WHAT IS VIAFIT?

Available on the new Elegant+ and Touch+ consoles, ViaFit is wireless connectivity for your exercise equipment. It enables your equipment to share your workout data with your favorite fitness apps and other tracking devices.

WHAT IT DOES

ViaFit simplifies workout tracking. You never have to manually enter your workouts anywhere because your equipment does it for you.

Go to ViaFitness.com to track your efforts, set a goal or join a challenge. And if you're already tracking your fitness somewhere else? You just link those apps or devices, and ViaFit will send your workout data to them as soon as your workout ends.

WHY IT WORKS

Tracking your health and fitness data can help you stay on course with your wellness plans. Also, sharing with friends keeps you motivated and accountable.

ViaFit makes it that much easier to capture your home workouts in the apps and tools you already use and to share them with the communities where you already belong. Plus, our ever-expanding network of partners means your options will grow over time.

Do what works best for you: Monitor your progress at ViaFitness.com or with your current tracking tools. It's your choice!

VIRTUAL ACTIVE

WHEN YOUR WORKOUT HAS WANDERLUST

Imagine jogging through the northern foothills of the Rocky Mountains. You hear pebbles crunch softly underfoot and a red-tailed hawk off in the distance. As the road gradually rises, so does the incline on your treadmill. You start to sprint, and the scenery flies by at the same pace. It's an experience unlike any other. It's Virtual Active, an exciting immersive technology that will revolutionize fitness and take your workouts all over the globe. Two Virtual Active™ workout locations, the American Northeast and the Northern Rockies, are included on the Touch+ and Elegant+ consoles. Additional Virtual Active courses are sold separately. With Virtual Active, working out at home is less like exercise and more like sightseeing.

VIRTUAL ACTIVE

PASSPORT MEDIA PLAYER

PLUG INTO INSPIRATION

Bring the immersive workout experience of Virtual Active to your home TV with the Passport Media Player, which syncs the high-definition destination footage on your large screen to the speed and intensity of your workout.

Passport comes pre-loaded with two destination choices: Northern Italy and American Southwest. Additional video packs are available. Learn more at PassportPlayer.com.

MEDIA PLAYER WITH VIRTUAL ACTIVE

TREADMILLS

DURABLE CONSTRUCTION AND INTELLIGENT FEATURES DELIVER SUPERIOR RESULTS.

With commercial-grade cushioning and innovative maintenance-free decks – relentlessly tested 21,000 miles to ensure that you can log workout after workout without service – Vision Fitness treadmills reset the bar for reliable performance. Factor in three unique console choices that allow you to select your ideal set of features and functionality, and it quickly becomes clear that Vision Fitness treadmills deliver not only the best quality and the best workout, but also the best total experience.

RUN FOREVER

INFINITY DECK SYSTEM

It's the deck system that never lets you down. It begins with our advanced cushioning technology that uses a material found in rail car bumpers. It absorbs maximum impact and continuous wear and tear without breaking down or losing elasticity, so you'll never need to replace it.

We also integrate wax into the belt fibers. Unlike silicone lubricants, our hard wax won't migrate to the edges of the belt as you use your treadmill. It stays right where it should so you never have to reapply it.

Finally, a double phenolic coating on the thicker, one-inch deck enhances durability and keeps the belt running smoothly.

It takes our tough cushioning, our exclusive maintenance-free waxed belt and the thicker, dual-coated deck to create a treadmill that lets you run forever. It takes the Infinity Deck.

INFINITYDECK SYSTEM

QUIET MOTOR | Put your treadmill where you like. Our quiet operation means you won't disrupt your household with your workout no matter where you work out.

JOHNSONDRIVE SYSTEM

THE QUIET, DURABLE AND RESPONSIVE DRIVE SYSTEM

JOHNSON DRIVE SYSTEM

Engineered especially for Vision Fitness treadmills, the Johnson Drive™ System delivers truly responsive performance as well as quiet and efficient operation.

Our motors won't lag or surge during your workout because the responsive digital drive system adjusts instantly with each footfall and recalibrates immediately when you change your speed or incline.

We also invest in larger motors that run at lower revolutions per minute, which minimizes noise. This keeps the motor cool, which is crucial for durability because high operating temperatures will damage the motor and shorten treadmill life.

Only the Johnson Drive System has the ideal combination of performance and quiet operation. That's why it's the only drive system you'll find in a Vision Fitness treadmill.

TF40

DESIGNED, ENGINEERED AND BUILT FOR PERFORMANCE

QUALITY WITHOUT COMPROMISE

At Vision, we prioritize durability and ease of ownership. We invest in heavy-duty frames and maintenance-free belts so your treadmill remains reliable and worry-free as long as you own it. We also offer standard and folding decks so that you can choose what suits your space and your preferences without compromising on stability.

EASY TO FOLD | For quick and easy setup, our exclusive hydraulic folding system helps support the weight of the deck as it lowers to the floor.

RELIABILITY MATTERS WHEN YOUR TREADMILL IS YOUR TRAINING PARTNER

TF 40 With our most powerful motor and heftiest steel frame, the TF40 offers premier performance along with the convenience of a folding frame.

T 40 When you've got dedicated space for your treadmill, the T40 delivers all of Vision's top-of-the-line features on a non-folding frame.

TF 20 A reliable and durable model with a maintenance-free belt, the TF20 is a performance treadmill with a folding frame.

ELLIPTICALS

SMOOTH MOTION AND QUIET OPERATION PROPEL YOU TOWARD YOUR GOALS.

Vision Fitness ellipticals are high-performance yet low-impact machines. Our biomechanically correct frames promote natural posture and comfortable motion so you can focus on your effort, not your form. Innovations like our magnetic resistance system minimize noise so you can exercise without disrupting the rest of the household. Plus, our advanced entertainment features and programming keep you engaged in your workout even as you add challenge by increasing intensity or duration. And if that weren't enough, we offer a fully featured folding model that saves space without sacrificing the quality you expect from Vision Fitness.

IF YOU'RE SO INCLINED

SUSPENSION ELLIPTICAL TRAINERS
Vary your intensity and speed to simulate walking and running, or add incline for a stadium stair-climbing experience with our Suspension Elliptical. The suspension pedal design eliminates wheel tracks, resulting in quiet, low-maintenance operation. Factor in the compact footprint and you have an innovative elliptical that provides maximum comfort while occupying minimal space.

PERFECTSTRIDE | Our unique suspension elliptical design with PerfectStride® motion eliminates surges and dead spots so you move more smoothly, burn more calories and get better results.

IT'S ONLY NATURAL TO WANT OPTIMAL RESULTS

S
7200 HRT
Our fully featured S7200HRT suspension elliptical trainer brings a variable stride to your workout so you can choose which muscles you work the most. The unique suspension design delivers an exceptionally smooth yet effective workout, and the compact footprint takes up less space than traditional ellipticals.

S
7100 HRT
Our compact yet innovative suspension elliptical trainer with incline makes the most of your space and your workout when you want a quiet, maintenance-free and low-impact alternative to walking, running or stair climbing.

BOTH CONVENIENCE AND COMFORT

FOLDING AND NON-FOLDING ELLIPTICALS
An ideal fit for total-body workouts, our front-drive ellipticals utilize a patented design and large balanced flywheel to deliver a smooth, fluid motion with consistent resistance. Vision Fitness ellipticals also have front transport wheels for easy movement or storage between workouts.

XF40

EASY TO FOLD | The XF40 folds to make it even easier to store or move to a different location in your home.

LOW-IMPACT WORKOUTS THAT DELIVER GREAT RESULTS AND UTMOST SATISFACTION

XF 40

The welded steel frame brings maximum stability and durability to our fully featured folding elliptical. Overlapping pedals and the long stride give the XF40 its superior motion, and multiple handgrips provide a comfortable fit for a variety of users.

X 40

The X40 offers all of Vision's premier elliptical features and functionality in a non-folding frame. The overlapping pedals replicate a true walking or running motion, and the long stride paired with the flat ellipse helps you move more naturally for a more comfortable workout.

EXERCISE BIKES

LOW IMPACT. HIGH QUALITY. GREAT WORKOUTS. TOTAL SATISFACTION.

Vision Fitness brings sophisticated design to high-performance exercise bikes. The result is equipment that looks as good as it rides. Add in commercial components for maximum durability, and you get a smooth, stable workout every time you climb in the seat.

THOUGHTFULLY DESIGNED SO YOUR TOUGH WORKOUT IS NEVER TOUGH ON YOUR BODY

Whether you choose an upright, recumbent or indoor cycle, you can ride toward your goals in confidence. Details like mesh seatbacks and step-through access enhance comfort, while durable components and sturdy frames provide an extra measure of security during your low-impact workouts.

U 40

Get the feel of an outdoor bike with the security of an indoor upright cycle. The magnetic resistance and heavy-duty flywheel deliver a smooth pedal stroke, and the multi-position handgrips and adjustable seat ensure a comfortable workout.

U 20

The compact footprint makes the U20 perfect when space is at a premium, and the multi-position handgrips and adjustable seat ensure an ideal fit for a comfortable workout.

R 40

Our top-of-the-line recumbent bike with a step-through frame delivers the smoothest, quietest and most accessible ride. Plus, the reclining mesh seat with lumbar support makes your workout as comfortable as it is effective.

R 20

The R20 recumbent exercise bike with a step-through frame and breathable mesh seatback delivers an accessible, low-impact, comfortable workout.

V-SERIES

The V-Series indoor cycle is built for durability so it can stand up to group training as well as your toughest workouts. The stainless steel post and handlebar stem along with the zinc-coated frame create a robust cycling platform. Plus, the precise adjustability helps every rider find the perfect riding position. Console computer sold separately.

SHORTEN YOUR WORKOUTS TO INCREASE YOUR FITNESS

THE MOST EFFICIENT FITNESS SOLUTION
More time doesn't necessarily translate into better fitness. In fact, working out less often and for shorter periods but at your highest intensity will yield the best results. That's the magic of Sprint 8, the science-based HIIT program that delivers results with just three 20-minute workouts a week.

A Vision Fitness exclusive, Sprint 8 can help you trim fat, tone muscles and boost energy. Some users experienced a 27% body-fat loss in just 8 weeks without changing their diets. These remarkable results are possible because Sprint 8 is a remarkable approach.

Whatever your fitness goals, the Sprint 8 workout can work for you. Simply choose the Elegant+ or Touch+ console, both of which are available on most Vision Fitness treadmills, ellipticals or exercise bikes. The push of a button will change your fitness routine, and your new fitness routine might just transform your life.

ASK FOR A SPRINT 8 DEMO AT ANY AUTHORIZED VISION FITNESS RETAILER.

THE SCIENCE IS COMPLEX. THE MATH IS SIMPLE.
